Hi Dylan,

Weren't exactly sure what workstream summaries you were looking for but I'm attaching the latest and greatest that we have. I hope this will be sufficient for your needs. If you still come up short on material let me know and I'll see what else we have that might help.

- Meeting agendas from Resource Recycling which also include appendices with information about the next steps for each group as we move towards AR week.
- Meeting notes from Resource Recycling for all four workgroups.
- A pdf of the status report we posted over the summer which summaries the vision, challenges, and potential actions the workgroups brainstormed earlier in the year.

For the infrastructure group, yes I can include you on those invitations. Just to clarify are you thinking about all invites including steering committee conversations or just the workgroup at large?

Suzie

Subject: REQUEST: Infrastructure Workgroup Meeting Summary Document

Hey Team ARN!

I am emailing you all for a couple of small favors. I am working on an internal summary for all the workstreams for the ARN activities and I have been on the outside of the last couple meetings and so I am hoping this group could share with me:

1. The last workstream summary from the last call — the word doc that you share with the group in advance of the meetings. Even just that email forwarded with the attachments would do (and is hopefully easy to do).
2. To be added to the Infrastructure emails/meeting invites/email list. I don't know if I can make all the meetings, but I would like to be dialed in as we approach ARW events, etc.

Thank you kindly for your assistance.

— Dylan
